TREE HUNDRED AND SEVENTY-FIFTH PARADEDET BLITALIAN BROTHERHOO --FESTIVITIES AT LION GARDEN--AI DRESS OF MR. RICARDI.

The Italian Brotherhood of Louisville aving adopted the anniversary of the discovery of America by Christopher Columous as their national holiday, the event was celebrated by them on Saturday last for the first time. The appropriate manner in which this great oecasion was commemorated entitles our Italian populaee to lasting credit. They entered into the celebration with a spirit of thorough apprecintion of the exalted character of Columbus, and of the beneficent results of labo

his memorable achievement to the seientific world, and its untold blessings to the whole human family.

In pursuance of the prearranged order, the Italian society, numbering about sixty members, appeared upon our streets in the forenoon, preceded by a based of muse, and hundsomely dressed in black, with their regal as of crimson bearing the cross insignia of Iraly. We noticed in the procession and at the Garbe morrived in the procession and at the Garden many of the most venerable Italians in our community. Their presence gave marked impressions to the commemorative exercises, and imparted a significance to the anniversary that could not be misunderstood. Mr. Ciark, Chief of the Printing Bu-eau of the Treasury, to-day presented to ecretary McCulloch, a detached official resu of the Treasury, to-day presented to reservisivy McCulloch, a detached official report in reterence to the counterfeit seven-thirty notes. He says that all the notes thus far presented are of the denomination of one thousand dollars, and dated June 15°b; 1855, and bear the check letter A or B, and noue of them are marked with C or D check letters, so far as has yet been discovered. He thinks it not improbable that such may have been all that are jut in circulation.

The detailed differences are—first. The Herald's Richmond special says:
The greatest excitement since the accession of Virginia prevails here over the Democratic successes reported in Ohio. The builtent boards are thronged with crowds to learn the results. Most extraordisary amicipations for the future are indulged in, many fearing the Democratic perty at the North, so long under the ban, may go into excess when it acq ires power. It is confidently expected that the victories in Chio and Pennsylvania will change the whole current of reconstrucfor the Constitutional Convention, on the 22d inst., will go in favor of the Conservatives on this account. The Republicans are crest-tallen and depressed. The negroes are said to be in a futore about the great change in popular sentiment at the North. The lutelligent among them, who understand the matter, have industriously speculated upon the news, and an ayalanche of luvetive and denunciation is hurled against Hunkutt in consequence. This course particularly from Is hurled against Hunleutt in consequence. This comes particularly from the conservative wing of the negro Republicans, and who are unanimous in denouncing the great Mogul as the author of all their wors and inistortunes by his extreme and ultra doctrines. Local issues and all matters relating to reconstruction are lost sight of in the great interest manifested for the news from the North.
